WK LED MICRO NEON RGB SERIES

WK LED MicroNeon RGB series..

Flexible Led Neon tube taken to the next level..now available in RGB
 Smaller size and more brightness in an even more flexible tube!
 Available with **Cree** leds for maximum brightness and lifespan

WK LED MicroNeon gives you uniform lit linear RGB LED lighting!!

This Flex tube is very flexible, easy to install, generates no heat and is dimmable!
 It's small size of **only 13*17mm!** makes it useable in nearly all circumstances
 Minimum lengths are 5cm at 12V and 10cm at 24V
 Maximum lengths are 5 meters at 12V and 5 meters at 24V

WK LED MicroNeon can be up to **IP68**, so suitable for indoor and outdoor use

SPECIFICATION:

Model:	Length of roll:	Size:	LED Spacing:
WK LED MicroNeon RGB series 12V	5 mtr	13*17mm	17mm
WK LED MicroNeon RGB series 24V	5 mtr	13*17mm	17mm
Model:	Cutting unit:	Watts per meter	Max. loading length
WK LED MicroNeon RGB series 12V	5 cm	14,4W	5 mtr
WK LED MicroNeon RGB series 24V	10 cm	14,4W	5 mtr

Recommended storage & operating temperature: -20C to 60C, 100% humidity.

Usefull lifetime:

All led's brightness decay during their lifetime, this process depends on several circumstances like temperature of environment, continuous activity, power supplies etc.

Our used Cree leds decay no more then 2% the first 2000 hours

Generally we state the usefull lifetime could reach over 30.000 hrs

Note: it is not to be advised using the MicroNeon 24/7, decay increases when used continuously!
