## WK LED RGB CONTROLLER

### Multi function LED Controller

Platinum series LED controller is a universal high-powered out-put power controller which is intended for entire color changes; it adopted the most advanced PWM (Pulse-Width Modulation) controlling technology at present, ABS engineering plastic enclosure makes it more elegant and exquisite. It can control all 4-wire, 3-loop (common anode) LED RGB full color lights broadly such as LED module, LED strip, LED SMD tape, and high power LED projector, wall-washer/ flood light, underwater lamp etc.

### Features

- 1, automatically adapt to the LED Lighting which works from DC5V to 24V;
- 2, with on/off switch function;
- 3, 3-Channel RGB control, maximum output 6A per channel, can work under full load;
- 4, 17 modes available, color-smooth, skipping, horse-racing, flicker etc;
- 5, Maximum 256-level color depth per R, G, and B;
- 5, can individually choose each changing modes to adjust speed and brightness;
- 6, temporary pause function which can remember the current color and color depth;
- 7, unlimited power output expansion, if works with [WK LED LT-3060](#) or [LT-390](#) Repeater;

### WK LED LT-3600 V3.0

Input Power	DC5V / DC24V
Output Current	6A/CH×3
Output Power	90W(5V) 220W(12V) 450W(24V)
Grey Scale	256 levels
Dimension	L211×W40×H30(mm)
Package Size	L215×W43×H33(mm)
Weight	180g
