

WK SMD LED STRIPS

Benefits:

WK SMD LED Strips are very suitable for interior lighting
Available on 5 meter rolls and cuttable every 3 led's

Made of printed flexible circuitboard with adhesive back
Various colours like; **RED**, **YELLOW**, **BLUE**, **GREEN**, **WHITE**, **WARM WHITE** and **RGB**

Applications:

Edge-Lighting of transparent or diffused materials
Path & contour marking
Indirect lighting in coves etc..

Basic Technical Data:

Standard length: 5 meters reel
Ribbon width: 8mm / RGB: 10mm
Printed circuit board thickness: 0.25mm
Voltage: 12V-DC
Current: 2A for whole length
Entire reel led quantity: 300 pcs. / RGB: 150 pcs.
Size of smallest unit 3 LED's (L*W): 72mm*8mm
