

## PLEXINEON® 2'-0" CUTTABLE & 2'-0" CORNER CUTTABLE PIECES

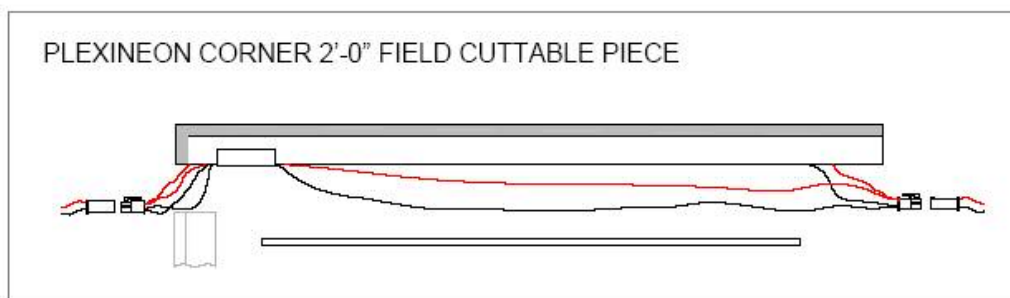

### iLight # PN24(COLOR)-2-CUT

- Plexineon's 2'-0" field cuttable piece is designed to fit the gaps after the standard 2', 4', 6' & 8' lengths have been installed
  - When product is cut the remainder end can still be used
  - Designed with power pass-through to connect to the next piece in a run
  - LED colors available: red, orange, amber, blue, green, teal and white
  - Plastic channel colors available: silver, red, yellow, blue, green, white and black
  - Please note that based on color, cutting increments may change.
  - Comes with silicone sealant, extra connectors, and plastic c-channel for wire management
- *Note: White Plexineon comes in silver channel only*

### iLight # PN24R1-2-CCUT

- Plexineon's corner 2'-0" field cuttable piece is a great way to have the best functionality of a corner piece and a cuttable together. The 2'-0" long piece has a mitered corner on the end for outside corners.
- When product is cut the remainder end can still be used
- Designed with power pass-through to connect to the next piece in a run
- LED colors available: red only
- Plastic channel colors available: red, silver, black or white
- Comes with silicone sealant, extra connectors, and plastic c-channel for wire management
